# MURPHY SEED COMPANY

**745 WALL STREET**

**LOS ANGELES**

**YELLOW WONDER—Column Stock**

Due to California weather conditions last spring and lack of imports because of world conditions, seed supplies are very short this year. We suggest, therefore, that you order early while our stocks are complete.

## **Your Business AND Our Business**

YOUR reputation as a grower of superior flowers and plants is maintained and furthered when you restrict your seed source to one maintaining an equally high reputation for seed production. In no line of endeavor is quality more essential to success or ultimately more economical than in the choice of seeds. It is the foundation of profitable production of salable stock.

Murphy Seed Company insists upon furnishing only seed of the highest quality procurable. We closely watch the growing developments of the foremost commercial growers on the Pacific Coast. We sell seeds to many growers who supply the critical Los Angeles market, nationally known for quality standards. Our first-hand knowledge of seed and flower production, our painstaking selection and reselection of seed from the most superior strains, is an integral and priceless part of every order we fill.

Aster Florist New Upright Single Rainbow Mixed (Wilt Resistant)

### ASTER FLORIST NEW UPRIGHT SINGLE RAINBOW MIXED (Wilt Resistant).

This new habit in Rainbow Asters perfected for the Los Angeles market and shippers has really reached its height of perfection. Instead of regular branching habit this variety grows perpendicular, providing a fast cutting and bunching aster. Flowers grow very even at the top. Single and often semi-double blooms appear. The mixture contains all the bright, popular aster colors and this year we offer this to our trade as a flower worthy of your attention. Tr. Pkt., 25c; 1/4-oz., 45c; 1-oz., \$1.35; 1b., \$16.00.

### ASTER PRINCESS (Wilt Resistant)

New type of free crested center surrounded by several rows of guard petals. Very true to type and color.

**PRINCESS BONNIE**—Soft salmon pink with rich gold center. Tr. Pkt., 50c

**PRINCESS ANNE**—Peach blossom. Tr. Pkt., 50c

## NEW SPRING FLOWERING SWEET PEAS

A new vigorous long-stemmed type of sweet pea for greenhouse and outdoors. The blooming period is between the Early Flowering and Late Flowering Spencers. The flowers are very large with 3, 4, and 5 blooms on extra long stems. The plants are highly productive in early spring and bloom well into the hot weather of the summer. You and your customers will be well pleased with the splendid color range of these new 1942 Spring Flowering Sweet Peas.

**BLACK SEEDED CREAM**—Beautiful deep cream. Although black seeded, it is as free from the pink blush usually associated with black seeded cream as we have ever seen. Flowers are large and stems long. Extremely vigorous. Long blooming period.

**BLACK SEEDED WHITE (New Stock)**—Free from the blush pink tinge found in most Black Seeded White Sweet Peas. The pure white flowers are of large size and perfectly placed on long, stout stems. Sure to be a great favorite with commercial growers under glass for the late spring season and will be excellent for market growers who produce flowers in the open.

**DEEP MAROON**—Dusky chocolate maroon with a satin sheen which gives a brilliant effect. Very large flowers, four being borne in abundance on long stems. The plants are robust, and the period of bloom quite extended.

**LIGHT BLUE**—Delicate shade of silver blue or clear light blue. Four flowers well spaced. Extremely long stems. The same vigor as our other Spring Flowering varieties. Quantities of bloom.

**LIGHT CARMINE**—Clear bright light carmine with rose shading. Cream ground gives a warm tone, especially under artificial light. Four well-formed flowers of good size on extra long stems.

**LIGHT CREAM PINK**—Delicate, appealing, apple blossom pink with amber or cream underlay. Flowers extremely large and bold. Plants are remarkably vigorous, yielding quantities of long-stemmed, four-flowered sprays.

**NAVY BLUE**—One of the deepest of navy blue Sweet Peas. Flowers unusually large and well expanded. Remarkably long stems. Quantities of blooms over an extended season. A much desired color that will be greatly admired.

**PURPLE**—Deep, rich, glowing, royal purple—a king-ly color. The deep clear color evenly placed on standard and wings is enhanced by glossy texture of the petals. Large four-flowered sprays, long stems, great vigor.

**WHITE SEEDED WHITE**—Flowers not so large as some of the other Spring Flowering varieties, but lack of size is made up in purity of color, length of stem, and vigor or growth.

**Above varieties:** ½ oz., 75c; 1 oz., \$1.50; ¼ lb., \$5.00; 1 lb., \$20.00.

### OTHER SPRING FLOWERING SWEET PEAS

**SPRING FLOWERING BLUE**—Marine blue.

**SPRING FLOWERING LAVENDER**—Clear lavender.

**SPRING FLOWERING ROSE PINK**—White ground, sparkling color.

**Above 3 varieties:** ½ oz., 30c; 1 oz., 50c; ¼ lb., \$1.50; 1 lb., \$6.00.

**SPRING FLOWERING CLEAR PINK**—Very free flowering. Attractive color.

**SPRING FLOWERING MAUVE**—About the shade of Early Triumph. Vigorous, large flowered.

**Above 2 varieties:** ½ oz., 50c; 1 oz., 90c; ¼ lb., \$2.50; 1 lb., \$10.00.

Because Zinnias are a very important item for you, much work has been done on them, especially on the California Giants, Dahlia-flowered and Pompon types, to true them as to doubles, color and type. We are pleased to give you these much better and truer types for your critical clientele.

**ZINNIAS** Giant Dahlia Flowered

Plants are of medium height. The flower is built up to resemble a show type of dahlia, hence its name. Our seed is all from re-selected stock, very true to color and high percentage of doubles.

**CANARY BIRD**—Yellow.  
**CRIMSON MONARCH**—Deep crimson.  
**DREAM**—Deep lavender.

Scene taken on Murphy Seed Co. Ranch at Downey, California. Mr. G. Edwin Murphy (right) and Harold Norman, Ranch Superintendent, inspecting crops.

Due to the many seed shortages arising from the lack of imports of many varieties of flowers never before grown at a profit in America, Murphy Seed Co. located their seed ranch at Downey in order to grow many of these flowers for our customers: Begonias, Phlox, Column Stocks, etc.

Murphy's Trial and Test Grounds are also located here. Practically every variety in our catalog is tested for germination, purity, and lines sought along improvement. All new flowers originated by ourselves and other growers are planted in order to observe closely the improvement and value before passing on to our customers. All our customers are cordially invited, when visiting Southern California, to inspect our Trial and Growing Grounds.

Ranunculus

## RANUNCULUS BULBS

### Murphy's California Giants

Developed from top-quality strains, with a view toward supplying the commercial grower the best for successful growth and profitable sales.

MURPHY'S CALIFORNIA GIANTS include a very high percentage of doubles and semi-doubles. Mixed colors come from selected seeds of best strains and include an unusually beautiful range of colors.

Separate colors are White shades, Golden Yellow, Pink shades, Red shades and Orange shades.

### ANEMONE BULBS

These bulbs are grown from very choice seed. Colors are bright, stems are long and flowers are large. Separate colors will be Bright Scarlet, Dark Blue, Large White and a New Lilac Rose. We will also have a splendid single mixed and an exceptionally fine double mixed.

Ranunculus and Anemone Bulbs will be ready about August 15th. Write for prices and sizes.
